I. HOW TO ACCESS THE SYSTEM

1. Open the web browser, and go to http://192.168.1.102/NDC_CMS.

2. Enter your email address and password provided by IT Unit.

II. FORGOT PASSWORD

If you cannot remember your password:

- a. Click forgot password on the login page. You will be redirected to the forgot password page.

 NATIONAL DEVELOPMENT COMPANY Enabling the future	National Development Company		
COMPLIANCE MONITORING SYSTEM		Page No: 3 of 10	
Document No.: NDC-CMS-2026	Revision No.: 00	Effectivity:	

- b. Enter your registered email address.
- c. Follow the reset instructions sent to your inbox.

III. USER INTERFACE

After login, you will see the main dashboard, where the sidebar is displayed. The sidebar provides access to the main modules of the system, including:

- Dashboard
- Compliance
- Calendar
- Notifications
- Documents
- Administration

Depending on your assigned role and permissions, some menu items may be hidden or restricted.

IV. DASHBOARD OVERVIEW

The dashboard provides an overview of the system by displaying key information, summaries, and visual reports. It enables users to quickly monitor activities, track progress, and access important system data from a single page.

Document No.: NDC-CMS-2026	Revision No.: 00	Effectivity:	

V. COMPLIANCE

- a. Compliance Management – this module is used to manage compliance requirements. It enables users to view, organize, and monitor compliance information within the system depending on the user's assigned role and permissions.

- b. Compliance Status – it allows users to monitor and manage compliance submissions. It displays the compliance requirements assigned to the user, workgroup, department or unit.

VI. DOCUMENTS

- a. Document Management - Document Management is the section used to review, organize, and monitor compliance-related files and submissions for proper recordkeeping and decision-making.

- b. Submitted Documents - this section allows users to view, manage, and track the files they have already submitted for review.

- View submitted documents
- Search and filter submissions
- Download previously uploaded files
- Upload revised files if a submission needs correction
- Check reviewer remarks and review status

VII. CALENDAR DEADLINES

The Calendar helps users track compliance deadlines, scheduled tasks, and important dates related to regulatory obligations.

The calendar helps teams stay organized by showing when compliance actions are due. It reduces missed deadlines, improves coordination, and makes it easier to monitor follow-up work.

VIII. NOTIFICATIONS

This is used to keep users informed and help them respond quickly to compliance tasks. It reduces the chance of missing important updates, especially when multiple submissions or reviews are in progress.

- Inform users about compliance updates and reminders
- Highlight pending reviews and follow-up actions
- Provide a central place to review important activity
- Help users respond quickly and avoid missing deadlines

- d. Notification Rules - allows administrators to configure which system events generate notifications and how those notifications are delivered, whether in-app or by email. They can toggle delivery channels per event, review counts of enabled channels, and save changes that apply immediately.

ADMIN TOOL
Notification Rules
Configure how compliance notifications are delivered and when they are sent.

NOTIFICATION TYPES: 3 | IN-APP ENABLED: 3 / 3 | EMAIL ENABLED: 3 / 3

Compliance
Toggle delivery per event. Turning a channel off here stops that notification from being sent through that channel going forward.

#	NOTIFICATION	IN APP	EMAIL
1	Compliance deadline reminder - COMPLIANCE_DEADLINE_REMINDER Send/show reminders as a compliance deadline approaches.	☒	☒
2	Submission reviewed (approved/rejected) - COMPLIANCE_REVIEW_DECISION Notify the submitter when a reviewer approves or rejects their submission.	☒	☒
3	Document submission received - COMPLIANCE_SUBMISSION_RECEIVED Notify the creator when a proponent submits document(s) for their compliance item.	☒	☒
